#### Full Stack Web Development

Unified Mentor Dec/24 - Feb/25

- Collaborated on three diverse projects, demonstrating adaptability and teamwork in a fast-paced environment.
- Successfully applied learned concepts to practical challenges, ensuring timely and efficient project delivery.
- Enhanced problem-solving, communication, and technical skills through hands-on project execution.

### SUMMARY

Creative and detail-oriented web designer with a strong foundation in HTML, CSS, JavaScript and responsive design principles. Proficient in modern frontend framework like React JS, Tailwind CSS, Bootstrap for user-friendly websites. Skilled in implementing mobile-first designs, ensuring cross-browser compatibility, and optimizing website performance. Passionate about delivering engaging user experiences and committed to learning and adapting to new trends in web technologies. Aiming to contribute innovative ideas and technical expertise to build impactful digital solutions

### PROJECTS

#### Calculator:

- Developed a dynamic and responsive calculator using HTML, CSS, and JavaScript.
- Applied HTML for Structuring calculator.
- Applied CSS for a clean, user-friendly interface, enhancing overall User Experience
- Leveraged JavaScript to manage logic, input validation, and real-time calculations

#### Gemini Clone:

- Developed a responsive functional Gemini clone using React.js, replicating core features and modern design.
- Integrated Text-to-Speech (TTS) functionality using web APIs, allowing dynamic audio responses for improved accessibility and interactivity.
- Optimized the application for performance, achieving fast load times and seamless functionality across devices.
- Gained hands-on experience with React hooks, API integration, and debugging in a production-like environment.

#### Weather Application:

- Implemented a real-time weather app using HTML, CSS, JavaScript, and API integration.
- Styled a responsive UI using CSS to ensure seamless experience across devices
- Utilized JavaScript to handle API requests, process JSON responses, and update the DOM for seamless data rendering.
- Designed a responsive and user-friendly interface with dynamic updates of weather conditions like temperature, humidity, wind speed.

#### Job Application Form:

- Designed and developed an interactive web form using HTML, CSS, and JavaScript.
- Implemented input validation using JavaScript to ensure accurate and user-friendly data entry.
- Styled the form with CSS for a responsive and visually appealing layout across devices.
- Incorporated real-time feedback and dynamic field updates to enhance user interaction.
- Gained hands-on experience with DOM manipulation and event handling.

### CERTIFICATION

- Completed Developer and Technology Job Simulation with Accenture
- Completed Success Mindset with HP Life
- Completed Technology Software Development Job Simulation with Citi
- Completed JavaScript Course with KG Coding
- Successfully Completed 2 months of Internship with Unified Mentor
- Completed ReactJS Course with KG Coding
- Completed Masterclass of Excel with CETPA Infotech Pvt. Ltd.
